TECHNOZION

INNOVATION BEYOND BOUNDARIES

OCT 24-25 2025

<https://technozion.nitw.ac.in/>

TECHNOZION'25

WELCOME TO NITW

Since its inception in the year 1959 as Regional Engineering College Warangal, NIT Warangal has culminated into a premier technical institute in India with its alumni contributing profoundly to the engineering industry as well as ascending to unprecedented heights in finance, art, culture, politics and various other professional disciplines. At NIT Warangal, the faculty and students strive towards not only emulating but exceeding the legacy of the alumni and the institute, by immaculately professing the idea of holistic development of students. Along with their core and rudimentary engineering disciplines, the concepts of art, culture and heritage also have a profuse impact on the lives of the students pursuing their education at this institute of national importance.

ABOUT TECHNOZION' 25

NIT Warangal celebrates its heart and soul in the form of TECHNOZION, the annual technical festival, organized by student fraternity at National Institute of Technology, Warangal. Established in 2006, Technozion has been at the forefront of fostering technological advancements and providing a platform for young minds to showcase their brilliance at the largest technical fest of India. Technozion has grown exponentially to become the largest technical fest in south India. It includes the conduction of 30+ top class events with the aim of gathering engineering students from various regions and providing them opportunity to showcase their abilities and talents. With every passing year, the events at Technozion grow bigger and better. As we eagerly anticipate the unfolding chapters, get ready for the latest installment in the saga - Technozion '25 .

TECHNOZION'25

Technozion organizes :

- Most innovative and advanced workshops based on the various prominent current technologies to nurture the abilities of the participant.
- Inceptive initiatives to make society a better place to live in. Informative guest lectures to know about how eminent personalities address an issue in their respective field of study.
- Illustrative exhibits to update the participant about the never ending development taking place in the engineering industry.
- Incredible shows to illustrate and enjoy the beauty of technology.

Technozion has manifested the in depth meaning of its motto:

'Create, Conceive and Conquer.'

With multiple institutes participating, the fest provides an assemblage to the technical skills of 15000+ students over the course of 2 days in the institute. With the great responsibility of quenching the thirst for knowledge, we set off to rebuild the Technozion experience once again this year

PROF. BIDYADHAR SUBUDHI
DIRECTOR

I am delighted to invite you to be a part of our flagship annual technical festival, Technozion. Over the course of two days, this festival transforms our campus into a vibrant hub of innovation, bringing together students, researchers, industry professionals, and thought leaders to engage in a rich spectrum of technical events, and competitions.

At NIT Warangal, we take pride in being one of the nation's premier institutions of technical education and research. Technozion reflects this spirit by providing a platform for students to explore cutting-edge technologies, collaborate across disciplines, and demonstrate their problem-solving abilities through real-world applications.

Your presence will not only inspire our students but also provide a valuable opportunity to connect with some of the brightest young minds from across the country. We believe your association will enrich the festival's impact, offer unparalleled brand visibility within the academic and student community, and strengthen the bridge between academia and industry.

With your support and goodwill, we are confident that Technozion will continue to scale new heights as a celebration of technology, innovation, and creativity. We look forward to your esteemed presence and contribution in making this event truly impactful and memorable. I wish Technozion-2025, a grand success!

DEAN STUDENT WELFARE'S MESSAGE

TECHNOZION'25

As the Dean Student Welfare of NIT Warangal, I take immense pleasure in inviting you to our annual Technical fest Technozion, where passionate minds unite to innovate. Over the course of two days, talented minds from all over the country come together to showcase their technical skills in various events, workshops, and exhilarating competitions. We provide you with a platform to connect, create, and upskill yourselves by getting hands-on experience with cutting-edge technologies. This fest will not only be a feast for technical enthusiasts but will also ignite a spark of innovation in every mind. We assure you that every event will leave you hungry for more, and we have plenty of innovation to mesmerize you. We are optimistic that Technozion will reach its pinnacle this year with your active participation and contribution

PROF. K.. KIRAN KUMAR
DEAN STUDENT WELFARE

PROF. HARI PRASADA REDDY
PRESIDENT,
TECHNICAL SOCIETY

It fills me with pride to welcome you all to Technozion'25, a celebration of innovation, passion, and collaboration. This fest embodies the creative spirit of NIT Warangal, inspiring every participant to explore beyond boundaries. Let's make this edition a remarkable fusion of technology and imagination. Wishing you all an enriching experience ahead

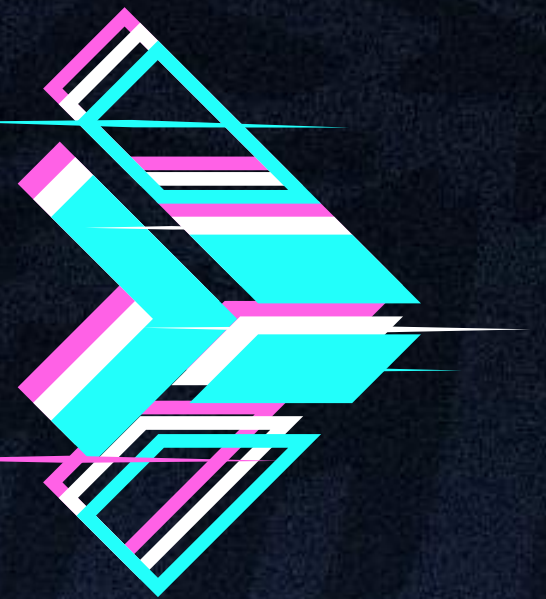

PROF. VENKANNA U.
VICE PRESIDENT,
TECHNICAL SOCIETY

Technozion'25 stands as a testament to our collective drive to innovate and inspire. It's a platform where ideas take flight and talent shines. May these days fuel your curiosity, strengthen friendships, and ignite a lifelong love for technology. Together, let's craft memories, breakthroughs that define the spirit of NIT Warangal.

Events

No Bugs Given

"No Bugs Given" is a competitive 1v1 debugging tournament where players race to identify and fix flaws in programs faster than their opponent.

RULES:

- ◆ Participants face knockout rounds and must debug programs for syntax and logic errors
- ◆ Strict time limit, with no AI tools permitted

Devashish : 9987938287

dv22csb0f38@student.nitw.ac.in

CSES Arcade

An intense 3D, two-player duel built on suspense, strategy, and quick thinking, enhanced by immersive visuals and sound design.

RULES:

- ◆ Players take alternating turns with randomized live or dud shells.
- ◆ The round continues until only one player remains.

Neel : 7022235002

nm23csb0f42@student.nitw.ac.in

Dance O-Watt

This event is a team based interactive dance experience

RULES:

- ◆ This team-based interactive dance event challenges players to follow on-screen steps in sync on a 3×3 energy-harvesting tile grid.
- ◆ Each correct move boosts their score, but one mistake ends the game and locks in their final score.

Adi Pranav:  6309641064

 na23eeb0a11@student.nitw.ac.in

Gesture Drift

The Event is a thrilling two-player competitive race where participants control their cars exclusively through hand gestures

RULES:

- ◆ Two players race gesture-controlled cars on a hurdle-filled track.
- ◆ The first to cross the finish line wins, using only hand gestures—no remotes allowed.

Pradeep :  7898513104

 ps23eeb0a09@student.nitw.ac.in

Opti-Mystery

In this event one must synchronize strobe lights with rotating objects to reveal and decode hidden patterns for points.

Rules:

- ◆ Participants must adjust the strobe frequency carefully, synchronize it with the rotating object, and decode the hidden information.
- ◆ The patterns may reveal numbers, letters, or even riddles. The faster you decode, the higher you score!

Kruthika:  9391783822

kk23eeb0b27@student.nitw.ac.in

Murder Mystery Investigation

Solve a thrilling mystery using AI-bot interrogations and digital clues, connecting evidence logically to uncover the hidden storyline.

Rules:

- ◆ Solve the mystery by analyzing clues from AI bot interrogations.
- ◆ Use additional software-generated hints to uncover the case plot.

Vineet :  6309 730 630

rv23ecb0b28@student.nitw.ac.in

ChipCraft

Build creative structures, automated systems, and logical circuits in Minecraft, showcasing problem-solving and technical imagination within the time limit.

Rules:

- ◆ Collaborate effectively and follow all in-game rules.
- ◆ Showcase creativity, efficiency, and precision in your designs.

Alstin :  8157987306

ao23ecb0f30@student.nitw.ac.in

Lie Detector

Answer thought-provoking questions while connected to a lie detector, revealing surprising truths and playful lies in a safe environment.

Rules:

- ◆ Take turns honestly and respect others' privacy.
- ◆ Enjoy the interactive experience of uncovering truth and deception.

Abhiram :  93468 09877

am23ecb0f25@student.nitw.ac.in

Neon Cricket

Each team has 6 players; matches are 6 overs per innings with 1 over per bowler, runs awarded by walls hit, and penalties for no-balls/wides.

Rules:

- ◆ Teams of 6 play 6-over innings, scoring via wall hits and bounces.
- ◆ Outs include bowled, catch, run-out, stumped, LBW, hit-wicket, and one-handed catches.

Naman Ranjan :  9931001777
 nr22meb0b44@student.nitw.ac.in

OFF TRACK:

RC Car Showdown

Fun races (3 laps each) at B-312, Mech Dept, 10 AM–12 PM & 2 PM–5 PM; overtaking/pushing allowed, first to finish wins, no prizes.

Rules:

- ◆ Each race has 3 laps on a circuit with turns, intersections, and elevation changes; overtaking and pushing are allowed.
- ◆ Participants complete all laps for fun; the first to finish is the winner, with no prizes awarded.

Om Prashant Patil :  9579298602
 op23mef0f01@student.nitw.ac.in

Mechanical Kit Assembly

In Mechanical Kit Assembly, participating team will be given a dismantled kit and they will have 45 minutes to assemble it.

Rules:

- ◆ Points will be awarded to team based on time taken to assemble the kit and percentage of kit assembled accurately.
- ◆ The team with maximum points will be declared winner.

Tsheten :  9382678789

tamangtsheten0@gmail.com

Track to Trivia: F1 Quiz

The F1 Quiz will have multiple laps: Online Qualifiers (basic F1 facts), Grand Prix (riddles, rapid-fire, strategy, buzzer), and a Final Lap (individual round).

Rules:

- ◆ In buzzer rounds, the first team to press gets to answer; wrong answers incur penalties.
- ◆ No audience discussion or use of phones/internet is allowed.

Vamsi :  9392791259

av22meh0b15@student.nitw.ac.in

Stone Age Prison Break

Stone Age Prison Break is an escape-room where teams solve science, chemistry, and logic puzzles to free Chrome from a stone prison. The journey ends with NaOH as the final “key” to escape.

Rules :

- ◆ Teams solve science, chemistry, and logic puzzles to free Chrome from a stone prison.
- ◆ The escape concludes with NaOH as the final “key.”

Kuppa Jnana Vaishnavi:  6303972267

 kj23chb0a10@student.nitw.ac.in

The Scoop Stop

An interactive ice cream station where participants make ice cream using the bag-in-bag method. It demonstrates freezing point depression, heat transfer, and phase transitions in a fun, hands-on way.

Rules:

- ◆ Participants make ice cream using the bag-in-bag method.
- ◆ The activity demonstrates freezing point depression, heat transfer, and phase transitions.

Yeddula Rudraaksh Reddy:  78936 50236

 yr23chb0a09@student.nitw.ac.in

DEA Audit

DEA Audit is an investigative simulation where participants analyze logs and evidence after a chemical plant explosion. The goal is to uncover whether the disaster resulted from negligence or sabotage.

Rules:

- ◆ Teams investigate logs and evidence using Root Cause Analysis.
- ◆ Final reports determine negligence or sabotage, scored on accuracy and adaptability.

Meta-Rush

“Meta-Rush” is an adventurous race across multiple routes with exciting checkpoints, where teams unlock clues via QR codes, complete challenges, and compete to finish first with the highest score. It’s a perfect mix of strategy, speed, and fun!

Rules:

- ◆ Teams race through 6–8 checkpoints, unlocking clues via QR codes.
- ◆ Points (+4 correct, –2 wrong, 0 dares) and time decide the winning team.

Sri Nithya :  7981589610

ss23chb0b09@student.nitw.ac.in

Harshitha :  90597 01704

ga22mmb0a44@student.nitw.ac.in

Metalusion

“Metalusion” brings futuristic materials like self healing compounds and smart alloys to life, showcasing their fascinating real-world applications. Visitors can explore how these innovations reshape technology.

Rules:

- ◆ Present special materials, like self-healing materials, at the stall.
- ◆ Explain their interesting applications to the audience.

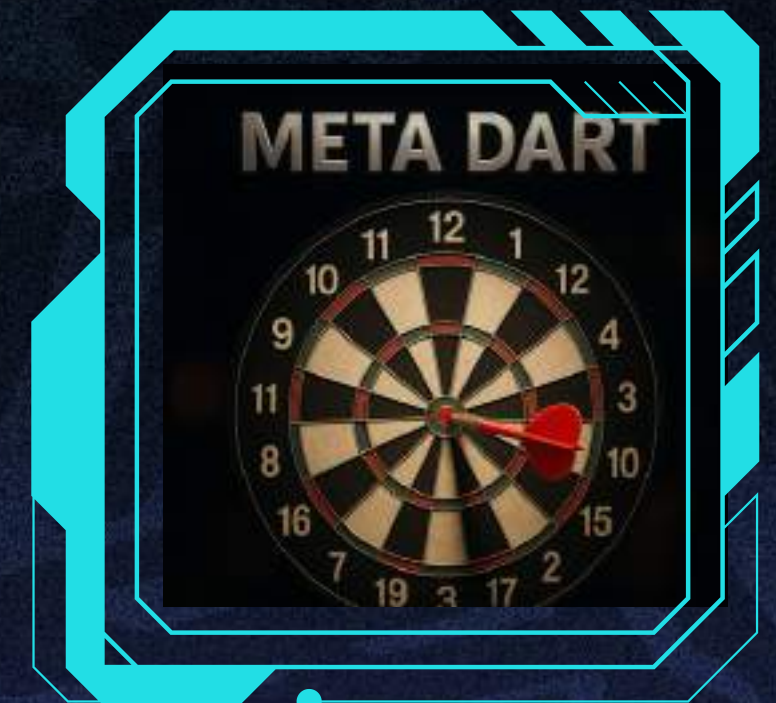

Harijinder: 9000130823

sh23mmb0a29@student.nitw.ac.in

Meta Dart

“Meta-Dart” is a fun blend of skill and knowledge where each dart throw decides your challenge. The closer you land to the center, the easier the question miss wide, and tougher material-based questions await!

Rules:

- ◆ Players throw a dart at a 12-section material board.
- ◆ Closer to center = easier questions; farther = tougher questions

Abhiram : 9059066629

ka23mmb0a47@student.nitw.ac.in

Project Expo

Project Expo is a platform for participants to showcase their innovative models and projects to an expert jury, gaining evaluation, recognition, and the visibility their work deserves.

Rules:

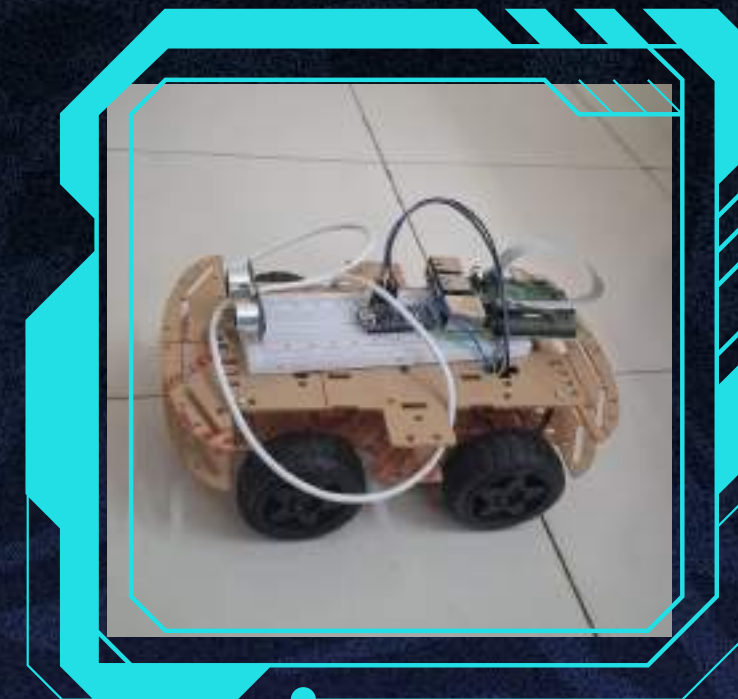

- ◆ Only original, participant-created projects are allowed; plagiarism will lead to disqualification.
- ◆ Each team must present their project within the allotted time and answer the jury's questions clearly.

Akhil :  90594 22616

 da23ceb0b14@student.nitw.ac.in

Project showcase

Project Showcase invites teams to present an AI-driven smart car prototype featuring road detection, traffic light recognition, and obstacle avoidance. The event highlights innovation in real-time intelligent systems, sensor integration.

Rules:

- ◆ Each team must present their own original prototype and demonstrate its features live.
- ◆ Teams must complete their demo within the allotted time and clearly explain the AI logic, sensor setup, and functionality.

Thisura Damsith :  9030620467

 ma24ecb0b68@student.nitw.ac.in

KBC - Kon Banega Civil Engineer

“KBC – Kon Banega Civil Engineer” is a fast-paced quiz competition testing participants’ knowledge in civil engineering. Teams compete through multiple rounds, leading to an exciting “Hot Seat” finale where the top scorers battle for victory.

Rules:

- ◆ Teams compete in multiple quiz rounds to advance.
- ◆ Top three teams enter the "Hot Seat" round to determine the final winners.

Tanmay :  77376 10206

 ts23ceb0a04@student.nitw.ac.in

Earthquake Resistant Building

‘Earthquake Resistant Building Model’ challenges teams to design and construct a 4-storey structure using limited materials that can withstand rigorous load and shake tests. It’s a test of creativity, engineering skill, and structural strength!

Rules:

- ◆ Design and build the strongest model possible.
- ◆ Models must withstand rigorous load and shake table tests.

Shristi Singh :  98933 99933

 ss23ceb0a09@student.nitw.ac.in

Bomb's Away

Bomb's Away challenges participants to time the release of a payload from a remotely piloted aircraft onto a ground target. Success depends on judging speed, altitude, and wind for maximum accuracy.

Rules:

- ◆ Pilot announces the approach, participant times the trigger to drop the payload, and marshals record the result.
- ◆ No communication or interference with the pilot is allowed during the run.

Dhanvanth Chandrasekaran : ☎ 7418056603

✉ dc23meb0b36@student.nitw.ac.in

RC Blaze

BLAZE is a laser Tag experience featuring a custom-built arena and DIY technology, challenging two teams to a 15-minute survivor match.

Rules:

- ◆ Two teams of four compete for 15 minutes; winners are decided by points or full elimination.
- ◆ Players have 3 lives and register via RFID or manually; scores are tracked live.

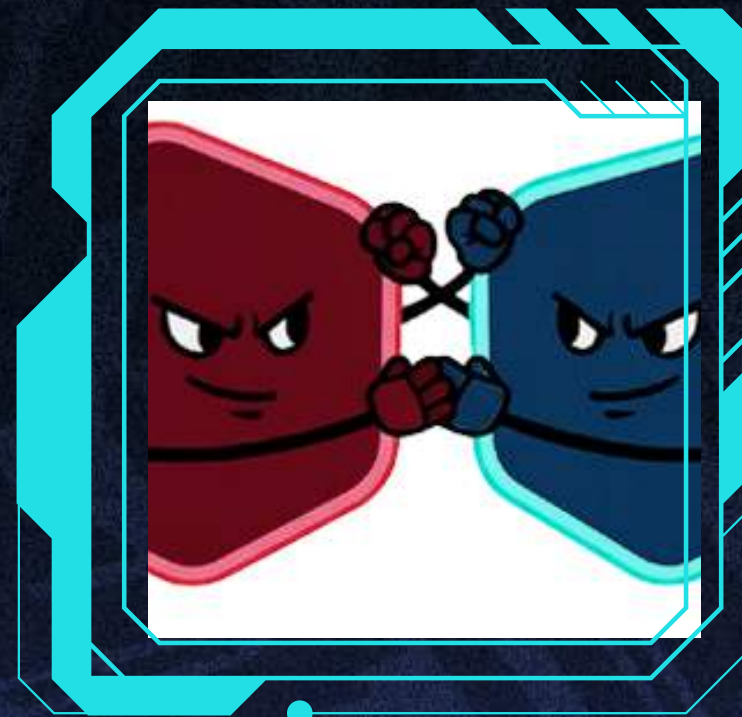

Soumilya Dwivedi : ☎ 8448644855

✉ sd24meb0b61@student.nitw.ac.in

Sumo War

Enter the arena for an electrifying Sumo bot battle where teams fight to dominate the warzone. Push, punch, and strategize to outsmart opponents and claim victory!

Rules:

- ◆ Two teams with 2 Sumobots each compete for 5 minutes, winning by pushing opponents out.
- ◆ If time ends, points (+10 Danger Zone, +5 punch) determine the winner.

Srijoy Mukherjee :  7569498783

sm24eeb0a60@student.nitw.ac.in

SDC Games

SDC Games is a thrilling survival-themed event inspired by Squid Game and Alice in Borderland. Players face intense, brain-bending challenges that test strategy, teamwork, and quick decisions—delivering nonstop excitement and adrenaline.

Rules:

- ◆ Players must strictly follow the instructions of each game any violation will lead to immediate elimination.
- ◆ Teamwork and fair play are essential no external help or unfair practices are allowed.

Prakhar Gupta :  9555298015

pg23csb0b24@student.nitw.ac.in

StockFischer AI Chess Engine

The StockFischer AI Chess Engine event is a chess competition where participants challenge an AI chess engine. The event is expected to attract around 100 participants and will last approximately 2-3 hours, including an introduction and technical overview of the AI

SKY SCOUT

Build a functional telescope using a standardized DIY kit, promoting the practical understanding of optics and scientific curiosity. Creativity and accuracy will be evaluated.

RULES:

- ◆ Each player gets a set amount of time for their moves; once a player's time runs out, they lose the game.
- ◆ Participants will get a single chance to play a game against the Stock Fischer AI. The player who lasts the longest or wins will be the champion.

Chivukula Vydik :  8008750604

cv23mab0f02@student.nitw.ac.in

RULES:

- ◆ Participants must use only the provided DIY kits.
- ◆ Telescopes must be completed within the allotted time without external tools or materials.

Vijay Sadula :  8500886548

sv23mab0a43@student.nitw.ac.in

Shark Tank 2.0

A premier pitching competition where participants present innovative ideas, projects, or prototypes to “Sharks,” fostering entrepreneurship by linking academic research with real-world commercialization.

Rules:

- ◆ Teams of 2–4 (individuals allowed) present original, non-commercialized ideas.
- ◆ Presentations must be in professional/business casual attire and last 8 minutes including Q&A.

Jaishankar Janardhan:  9660997997

 jj22ceb0a58@student.nitw.ac.in

Quick Time Challenge

Solve real-world problems specific to your branch, selected randomly, and craft a winning pitch within 30-45 minutes with access to full resources.

Rules:

- ◆ Tackle branch-specific real-world problems selected randomly.
- ◆ You have 30–45 minutes with full resources to craft your pitch.

Arjun:  9491299269

 da23ceb0b14@student.nitw.ac.in

Warangal Trading Ring

Step into the world of high-stakes trading and test your financial instincts. Compete in a simulated stock market environment and prove your strategy under pressure.

Rules:

- ◆ Each one will be allotted virtual stock of currency to trade.
- ◆ The person with the highest portfolio value at the end will be declared the winner.

Sudipa Ghosh:  8638975223

sg23chb0b12@student.nitw.ac.in

Startup Simulation Game

Teams of startup founders begin with a random idea and compete by adapting to challenges across four 10-minute rounds. They conclude the simulation by delivering a 3-minute pitch on their evolved business concept.

Rules:

- ◆ 3-5 members per team
- ◆ Teams must adapt their product idea within 10 mins per round.

Naitik Lunkad :  9907209000

nl23chb0a01@student.nitw.ac.in

Climb The Rope

"CLIMB THE ROPE" challenges participants to design and build an efficient rope-climbing robot using a basic chassis and selected components. Build a stable and fast robot that ascends autonomously

Rules:

- ◆ Use provided components to customize gripping mechanisms and control algorithms.
- ◆ Complete assembly and programming within time and pass all safety checks.

Utkarsh Prabhat :  82258 50228

up23eeb0b56@student.nitw.ac.in

Code Red

Bomb Defusal Challenge, teams collaborate to solve riddles, decode messages, and defuse a "bomb" within a time limit. It tests problem-solving, communication, and strategy skills.

Rules:

- ◆ Teams must use only provided materials, no external help or devices allowed.
- ◆ Bypassing stages leads to disqualification, judge's decisions are final.

Vedant Nair :  81308 39268

sv23meh0a43@student.nitw.ac.in

Starlight Sparkathon

A platform to showcase research and explore creative physics applications.

Rules:

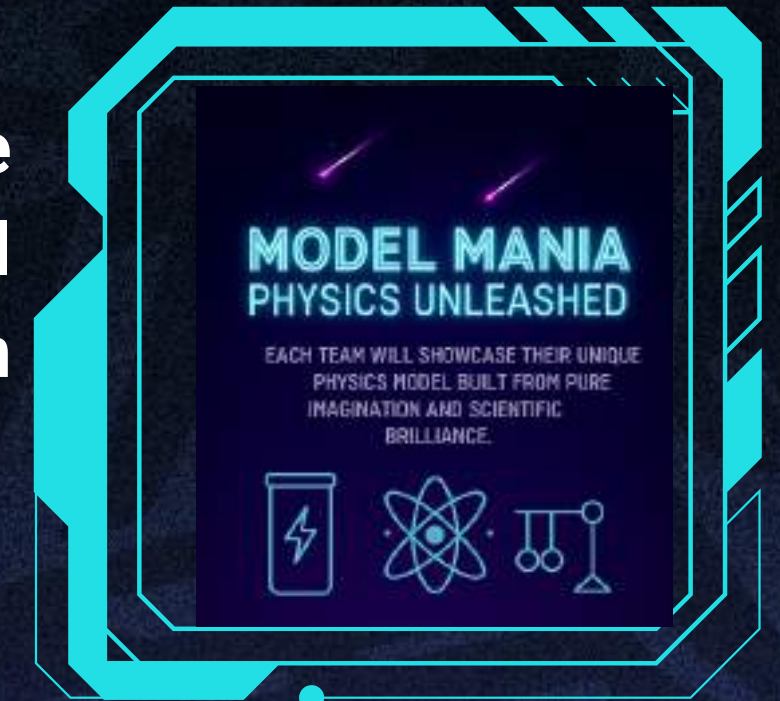

- ◆ Submit project ideas via Google Form.
- ◆ Top 10 present their project model, and 3 winners are chosen.

Stains :  8638975223

 ks22phe0016@student.nitw.ac.in

Model Mania : Physics Unleashed

Each team will showcase their unique physics model built from pure imagination and scientific brilliance.

Rules:

- ◆ 5 teams, 5 models, 100% creativity!
- ◆ Each team explains their model, and all participants receive e-certificates.

Stains :  8638975223

 ks22phe0016@student.nitw.ac.in

Treco Hunt

Gear up for Treco Hunt – a thrilling race of riddles, quizzes, and hidden clues across 5 exciting rounds! Solve, unlock, and decode your way to the final treasure before anyone else!

Rules:

- ◆ Teams must complete each round in order to move to the next.
- ◆ The first team to reach the venue with the final code wins.

Pranathi :  8309832046

 sp23mab0a14@student.nitw.ac.in

Math Relay Race

The Math Relay Race is a three-round challenge that blends speed, logic, and problem-solving. Presents deeper, conceptual math problems that demand clarity and reasoning.

Rules:

- ◆ Only one final Submission per team allowed.
- ◆ In case of a tie, fastest total completion time wins.

Neha :  8957366212

 y24mac2r19@student.nitw.ac.in

Mind Dominos

A multi-round contest of logic, speed, and strategy. From spotting errors to solving chained puzzles and a rapid-fire finale, the sharpest minds rise to the top.

Rules:

- ◆ Teams must attempt all rounds in order.
- ◆ Each correct answer unlocks the next stage.

Mehvish :  7219129324

 km24mac1r16@student.nitw.ac.in

Python Debug

A 1-hour coding faceoff to spot and fix errors. Solve 4 problems and climb to the top with precision and speed.

Rules:

- ◆ Set contains 4 problems , fix buggy code .
- ◆ -0.5 for incorrect submission .
- ◆ Time limit : 1 hr

Amogh :  7058116338

 aa23mab0a03@student.nitw.ac.in

TECHNOZION'25

Workshops Expos

DevOps Workshop

Teaching the fundamentals of CI/CD pipelines, automation, version control, and containerization with practical insights into tools and workflows used by top tech companies.

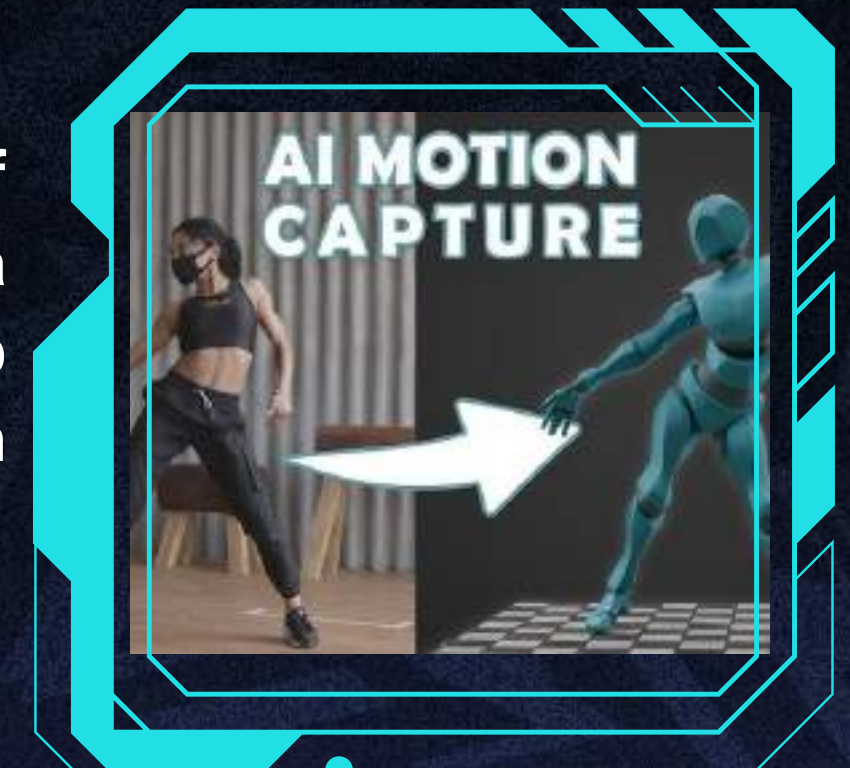

- ◆ Basics of version control
- ◆ Github actions
- ◆ Containerisation- use of docker, docker commands
- ◆ Small intro to orchestration- use of kubernetes

Mukesh :  6301966895

 am24btb0a07@student.nitw.ac.in

Motion Capture

The event is a unique blend of live tech demonstration and a hands on interactive workshop designed for the college's tech fest

The show will begin with a real-time display, where volunteers perform on stage and their movements are instantly captured and projected as animated 3D characters. Audience will experience technology behind movies and games.

Jaishankar Janardhan:  9660997997

 jj22ceb0a58@student.nitw.ac.in

Photography light painting session

An experienced guest photographer will lead a morning workshop on mobile photography, sharing tips and techniques to capture creative and professional shots using just a smartphone.

Rules:

- ◆ Participants must bring their own phones with enough battery and storage.
- ◆ Each participant will get 3–5 minutes for a joint light painting session with the guest photographer.

kasi vishwanath:  9490744388

 kk23mebob02@student.nitw.ac.in

Mobile Journalism

Learn how to transform your smartphone into a powerful storytelling tool! Inviting a journalist for conducting a event on mobile journalism and educating people about how to use mobile phones to do journalism.

This hands-on workshop will guide you through the essentials of mobile reporting, shooting, and editing, empowering you to create impactful news stories anytime, anywhere.

Mulka Madhav :  7671847031

 mm23meb0a56@student.nitw.ac.in

Speaker Session

Inspire students through expert talks and guide them on various fields related to entrepreneurship

The Innovation Garage is bringing in top experts for a dynamic speaker session designed to shake up your thinking about entrepreneurship and innovation. This isn't just about listening; it's about getting real-world insights, practical guidance, and a massive shot of motivation.

Vatsal Saini:  7819843527

 vs24meb0a67@student.nitw.ac.in

Rocket Building Hackathon

In the 3D rocket building hackathon, we will be building the teams all around the campus to make a prototype and launch it to win the competition.

Rules:

- ◆ Each teams will be given set of designs and models required to build it, alongside the brochure to build it from scratch.
- ◆ Hardware parts will be printed prior to the final competition, the assembly of electronics and hardware components will take place on the D day

Kumar Arpit :  8789602093
